

Congratulations on your purchase of the OBR ADV Gear T Handle Storage Bag. The T Handle Storage Bag has been designed as a universal fit application to work with all UTV Passenger T Handles.

Installation of your storage bag is super simple by using the included One Wrap Velcro Tabs. Loop the Velcro tabs through the chosen loop on the underside of the storage bag that best corresponds with your Passenger T Handle. Loop and secure the Velcro tab.

That's it ... you're done! Now go and ride!

If you feel that the velcro tabs are too long you can shorten by simply cutting with a sharp pair of scissors.
